Eagle Metals response to PA Governor Wolf's Executive order to close Non-Life Sustaining Businesses

To Our Valued Customers and Suppliers,

Let me first say that, these are challenging times for us all and my hope is that you and your families are safe and healthy.

On March 19, 2020, the Governor of the Commonwealth of Pennsylvania issued an executive order closing all but "life-sustaining" business in Pennsylvania until further notice to help stop the spread of Covid-19.

Eagle Metals has reviewed the order, we are exempt from the closing, as we are considered a "life sustaining business", and will continue to operate our facilities. Our products are required in the medical, defense, telecommunications and other industries vital to our country. We are maintaining our normal business hours and operations at this time, so that we can continue to serve our customers requirements.

Our employees safety is our top priority and we are diligently working to keep our facility and work areas sanitized and are following all CDC guidelines for prevention and mitigation in the workplace. We have restricted all non-essential travel and plant visitations into our Leesport and El Paso facilities.

We thank you for your continued support and greatly appreciate your business.

Should you have any questions, please contact your Eagle Metals representative or me directly at (610)-916-5201.

Stay Safe,

Charles Bernard
President
